SKILLS

Language Fundamentals:

- HTML5
- CSS / SCSS
- Javascript
- JQuery

Data Management:

- Firebase
- RESTful APIs

React:

- Components
- Props
- Classes
- Hooks

Working with Git:

- Version Control
- Collaboration
- GitHub

Team-based development
Collaborative coding
Responsive Design

EDUCATION

Juno College of Technology
AUG 2021 - OCT 2021
Immersive WebDev Bootcamp
Accelerated JS + WebDev

Niagara College
SEP 2011 - APR 2012
Winemaking & Viticultural Tech

Brock University
SEP 2008 - JUNE 2009
General Sciences

ABOUT ME

Committed to bringing fresh perspective into the world of Front-End Web Development. My diverse background in work environments has equipped me with a unique perspective on problem solving, with a focus on optimization in the workflow and quickly adapting to changes in the workplace. My ability to communicate concisely and effectively has been an invaluable asset, as is my ability to organize data in an intuitive and sensible way.

PORTFOLIO PROJECTS

TITLE OF MY THIRD PROJECT

GOAL OF THIS PROJECT

This is the description of my third project, it's a really great project that shows off all kinds of cool things which I'll be able to talk about when I'm assigned and complete my third project.

REGIONAL AIR QUALITY

COLLABORATIVE CODING AND ACCESSING APIS

After getting signage on project scope / pseudocode for project utilizing an API that logs current global air quality data, and producing results based on location and user query. Completed in collaborative setting, using SCSS, Vanilla Javascript, and focusing on version control with GitHub.

BEACHSTAYS

MATCH TEMPLATE GIVEN WITH ACCESSIBILITY AND RESPONSIVENE DESIGN

Given one of three layouts to work off, the purpose of the project was to match a design as closely as possible using SCSS (using variables, mixins, partial structure, and media queries). Mobile layout design was drafted and interpreted without guidance.

WORK EXPERIENCE

FIVE ROWS CRAFT WINERY
